

COMPANY PROFILE

2025

About Eye Gateway Communications

Combining over 26 years of technical experience in developing telecommunications infrastructures & ELV services. Eye Gateway Communications aims to be a major provider of engineering systems and infrastructure implementation across the ASEAN region.

Dedicated Talents

A total of 60 technical and administrative staff available for planned and unplanned jobs.

Automated HR management system to monitor and improve staff productivity and record keeping.

Compliance to Management and Industry Standards

We are certified to ISO 9001, ISO 14001 and ISO 45001 MS. Our staff are trained and aware on the importance of compliance to quality and safety expectations.

Dedicated existing offices and staff in Selangor and Penang to service clients in Kuala Lumpur, Selangor, Perak and Penang

Office for dedicated management staff

Meeting Rooms with teleconference facilities

Warehouses to keep stock material for faster response time

Advance Material Stocking

We purchase and standby 6 months worth of stocks for common Fiber and UTP cables (usual delivery time 8-12 weeks from manufacturer).

Able to schedule and complete jobs earlier than competitors.

ICT – Data Center Full Infra

We specialize in building Computer Rooms and Data Centers infrastructure. Our team provides a comprehensive “Design and Build” solution for our customers from consultation, designing, installation, implementation, commissioning and maintenance. A dedicated project team will be assigned from start to end during the whole project phase to ensure a smooth delivery to our customers.

Our Capabilities

- Structured Cabling
- Cable Support System
- Server Racks
- Computer Room Air Conditioning
- Security
- Environmental Monitoring
- Data Center Infrastructure Management (DCIM)
- Raised Floor
- Fire Suppression
- Uninterrupted Power Supply (UPS)
- Power Distribution Unit

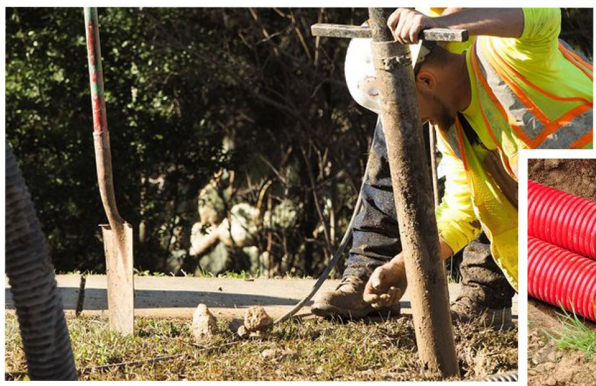

ICT - Structured Cabling

Eye Gateway Communications has extensive experience in the design, installation and testing of structured cabling systems for Campus, Manufacturing, Academic, Commercial, Retail, Hospital/Health Care and Public building environments. Our certified techs will install your cabling system adhering to preferred EIA/TIA standards, in addition to adhering to all Malaysian, state and local council requirements.

Our Capabilities

- **Structured Cabling**
- **Cable Support System**
- **Server Racks**
- **Computer Room Air Conditioning**
- **Raised Floor**
- **Fire Suppression**
- **Uninterrupted Power Supply (UPS)**
- **Power Distribution Unit**
- **Security**
- **Environmental Monitoring**
- **Data Center Infrastructure Management (DCIM)**

Outside Plant

Eyegateway Communications has an expansive background in outdoor Telecommunications cabling installation.

- Aerial, buried and underground cable placement (copper and fiber) network cabling
- High count copper cable splicing and maintenance/troubleshooting
- Fiber optic cable splicing and termination
- Fiber optic testing and troubleshooting
- OSP primary protection and OSP secondary protection
- Conduit, manhole, pull box installation
- Site survey and design services
- Trenching, plowing, road bores, directional bores

5 Reasons Why You Should Have an Annual Maintenance Contract

Contract Maintenance Services

We Offer Contract ICT / ELV Maintenance Services

- Structured Cabling Systems
- New / upgrade Fiber Optics and UTP cabling
- Equipment and Server Rack changes
- CCTV and Surveillance System
- Barrier Gates and Access Control Systems

Substantial Savings with Periodical Contracts

- Better manage costs with fixed monthly fees and annual contracts.
- Reduce cost of hiring, training and maintaining skilled or permanent staff.
- Reduce procurement workloads by preventing repeated procurement process for individual/repeated jobs.
- Better manage costs with fixed monthly fees and annual contracts.
- Reduce cost of hiring, training and maintaining skilled or permanent staff.
- Supply network equipment/cables at partner prices.
- You save cashflow and space without the need to stock network equipment/cables/tools/calibration and certifications.

ADVICE

SUPPORT

QUALITY

SERVICE

Contract Maintenance Services

Substantial Savings with Periodical Contracts

- Faster technical response and resolution as individual procurement process is avoided.
- We work around your schedule and attend to breakdown calls any time of the day. This also means disruptive system updates and maintenance can take place during off-hours or shutdown period.

ELV - Surveillance System

Integrated Solutions: We provide integrated security solutions that

- combine CCTV surveillance and access control, creating a holistic approach to premises protection.

Expert Team: Our team comprises security experts, engineers, and

- technicians who bring a wealth of experience in designing, implementing and maintaining sophisticated security systems.

Cutting-edge Innovation: We source the latest security technologies

- to offer clients the most advanced features, enhancing their ability to prevent incidents and respond effectively.

Customization: We understand that security needs are unique. Our

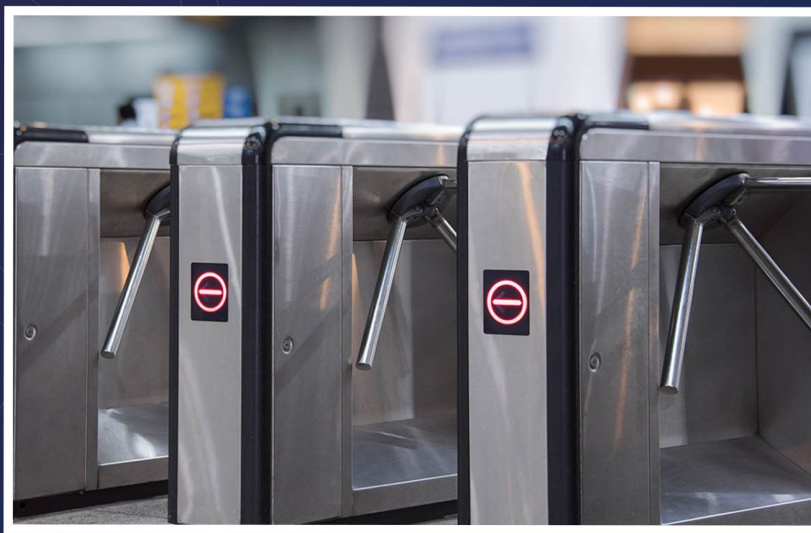

- solutions are highly customizable to cater to various industries and facility types.

Customer Support: Our commitment to customer satisfaction extends

- beyond installation. We offer ongoing support, regular system updates, and technical assistance to ensure optimal system performance.

ELV - Access Gates

EGCSB is a premier provider of barrier gate installation solutions, catering to a wide range of industries including residential, commercial and industrial sectors. With a commitment to enhancing security, convenience and access control, we bring innovation and expertise to every project we undertake.

Our Services

- Barrier Gate Installation
- Access Control Integration
- Maintenance and Support

Key Features

- Expert Team
- Custom Solutions
- Timely Execution

Industries

- Residential Communities
- Commercial Complexes
- Industrial Facilities
- Parking Garages
- Gated Developments
- Educational Institutions

Power / ICT - Horizontal Drilling

Eyegateway can install underground conduit, pipelines for power and telecommunications cables without the need for excavation. We own and operate horizontal directional drilling equipment for our own and external projects. With inhouse expertise, we can help customer to reduce time, costs and risks by installing outdoor fiber under existing roads, sidewalks, waterways, buildings and other obstacles.

Our Services

- Locate and mark existing underground utilities (gas, water supply, sewage, power, telecommunications etc) by using detection technologies and engaging with local providers and authorities
- Site survey obstacles, soil condition
- Pre-work planning & safety meeting
- Drilling, reaming and pull back
- Site cleanup and restoration
- Report submission

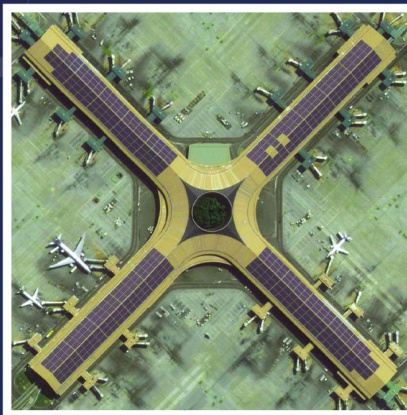

Civil, M & E and Energy Projects

Eyegateway Communications SB and its group company Kara Power Engineering SB are both CIDB G7 contractors involved in civil, mechanical and electrical engineering works, including renewal energy, building development, electrical cabling and telecommunications tower construction.

16 December 2022

To: EYE GATEWAY COMMUNICATIONS SDN.BHD

Extended Warranty Program for Existing Intel Projects in Malaysia

Dear Sir/Mdm,

This is to inform that EYE GATEWAY COMMUNICATIONS SDN.BHD is certified as a network preferred installer (NPI) for existing Intel projects in Malaysia only and is eligible to offer the 25 years extended warranty program (EWP) for local area network (LAN) and data center (DC) Installations. The duration of this certification is valid for 1 year only with effective from 16 December 2022.

Please note the EWP is applicable to the entire fiber cabling system, which include the fiber optic cables, fiber patch panel, cable assemblies and pre-terminated cabling systems.

The day-to-day patching works which include move, add, and change of existing cabling systems are not applicable for the EWP

Should you have any questions or additional concerns, please don't hesitate to reach out to me. We thank you again for your business.

Sincerely,

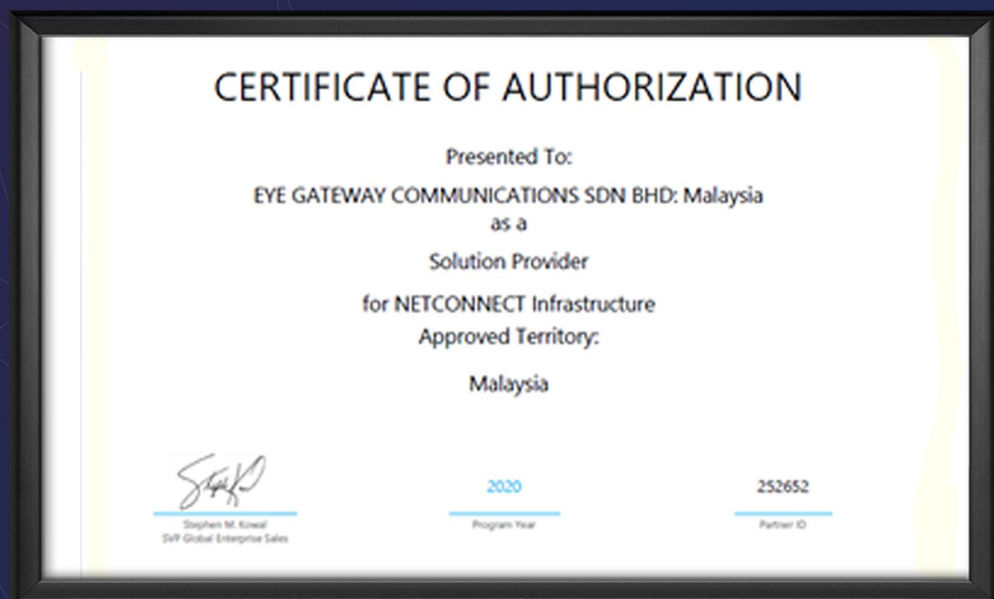

Grace Kwan
Sales Engineer, Enterprise Networks

HSE Policy

EGCSB practices Business in Mind and Green in Attitude policy. HSE is our highest priority during planning and operations. We have trained our staffs to prioritise in practising safe operational method as per following.

- **Wearing PPE (Personal Protection Equipment) at all time**
- **Understanding and following site safety requirements**
- **Communicate with site owners before and after operation to ensure safe job execution and clearance**

Global HIGHWIRE Certified

Eye Gateway Communications is certified by HIGHWIRE, a global independent subcontractor assessment program.

Customers' and General Contractors can be rest assured that we are already assessed and prequalified by Highwire based on our experience, resources, financial strength, performance and safety.

This assures lower risk, substantial cost savings and promotes safety for new clients or main/general contractors.

Global HIGHWIRE Certified
